REFERENCE LETTER

EGEM s. r. o. based in České Budějovice, Novohradská 736/36, contractor of tension works at investment:

Construction of double-circuit 400kV overhead power line Ostrołęka - Olsztyn Małki, with temporary work of one circuit under 220kV voltage between Ostrołęka and Olsztyn

hereby declares, that the company **SAL MULTIROTOR POWERLINE STRINGING Sp. z o. o.** based in Olsztyn, Władysława Trylińskiego Street 8, during construction has been engaged in following project:

Hanging the initial rope during tension works in difficult terrain using UAV aircrafts.

SAL MULTIROTOR POWERLINE STRINGING Sp. z o. o. has successfully handled the sections in the aforementioned range, performing flights with initial rope for a total distance of 11 732 metres.

The construction works were performed at 2 over-forest sections, covered preparation to tensioning the work conductors and OPGW wires.

Cooperation with **SAL MULTIROTOR POWERLINE STRINGING Sp. z o. o.** allowed to reduce the tension work costs in difficult terrain and had positive impact on safety and ergonomics of work processes.

Appreciating professional approach, engagement, innovative work methods and punctuality of performed work, we recommend the company **SAL MULTIROTOR POWERLINE STRINGING Sp. z o. o.** as a solid business partner.

Karel Toman
Section director
